

| Spec2TestAI™ Features | Spec2Lite™ | Paradigm™ | Abriz™ | Unleashed™ |
|--|------------|-----------|--------|------------|
| Requirement Entry and Analysis Across 32 Best Practice Measures in 5 Categories (INVEST, SMART, REAL) | | x | x | x |
| Generation of BDD Feature and Step Definition Files in Multiple Languages | | x | x | x |
| Enhancement of Requirements using AI for Significantly Improved Context, Completeness, and Business Value | | x | x | x |
| Generation of Security Requirements | *Plus | x | x | x |
| Removal of Ambiguities from Requirements with a 7-Point Framework | x | x | x | x |
| Requirements Table with 'Questions for Stakeholders' | | | x | x |
| Generated Test Cases from Requirements, Prioritized from P1 to P3 | x | x | x | x |
| Generated Test Cases from <i>Enhanced</i> Requirements, Prioritized P1 to P3 | | x | x | x |
| Test Case Description, Precondition, Test Data, Test Steps, Expected Result, Edge and Negative Tests Generation | x | x | x | x |
| Use of Mathematical Models for Test Generation, Avoiding Ad-hoc Generation and AI Hallucination | x | x | x | x |
| Security Tests Generation Aligned with Functional Test Cases | *Plus | x | x | x |
| Coverage analysis of test cases with AI commentary on coverage gaps | | x | x | x |
| Requirements Traceability Back to Test Cases for Audits and Retrospectives | | x | x | x |
| Automated Testing Framework in Multiple Languages for Code Generation | | x | x | x |
| Project Dashboard Measure of Overall Requirements and Test Health | | x | x | x |
| UAT Test Case Generation for Agile Stakeholders | | | x | x |
| Clarification Analysis Provided for Story and Acceptance Criteria Details | | | x | x |
| JIRA Plugin for Seamless Integration and Synchronization into Spec2TestAI | | | x | x |
| Advanced Cross-analysis Features for Platform Level, Requirements Level, and Isolated Requirement Level Analysis | | | x | x |
| Cross-analysis Ratings and Metrics Providing Actionable Insights | | | x | x |
| Upload Customer Specific Project Information | | | x | x |
| Unlimited AI Engagements and Uploads | | | | x |
